

SSWP Special Status Amphibian Photo Log 2018

Quail Lake April 2, 2018

Photo 040218_quail_01. Upper lagoon at Quail Lake

Photo 040218_quail_04. Old road at Quail Lake showing open water on left and marsh habitat to the right.

Piru Creek above Frenchman's Flat April 3, 2018

Photo 040318_ff_1. Photo of bottom of site looking upstream

Photo 040318_ff_5. Photo near top of survey area looking upstream

Pyramid Lake April 4, 2018

Photo 040418_Pyr_1. Piru Creek above Pyramid Lake within the study area, looking upstream.

Photo 040418_Pyr_2. Spring-fed stream at Bear Trap Picnic Area, Pyramid Lake, looking upstream.

Los Alamos Campground April 5, 2018

Photo 040518_LACG_2. One of the swales within Los Alamos Creek Campground

Photo 040518_LACG_3. Main swale within Los Alamos Creek Campground.

Gorman Creek April 5, 2018

Photo 040518_gor_1. Typical shot of Gorman Creek.

Photo 040518_gor_3. Pool habitat in Gorman Creek.

Los Alamos Creek April 5, 2018

Photo 040518_LAC_3. Looking at riparian corridor in Los Alamos Creek.

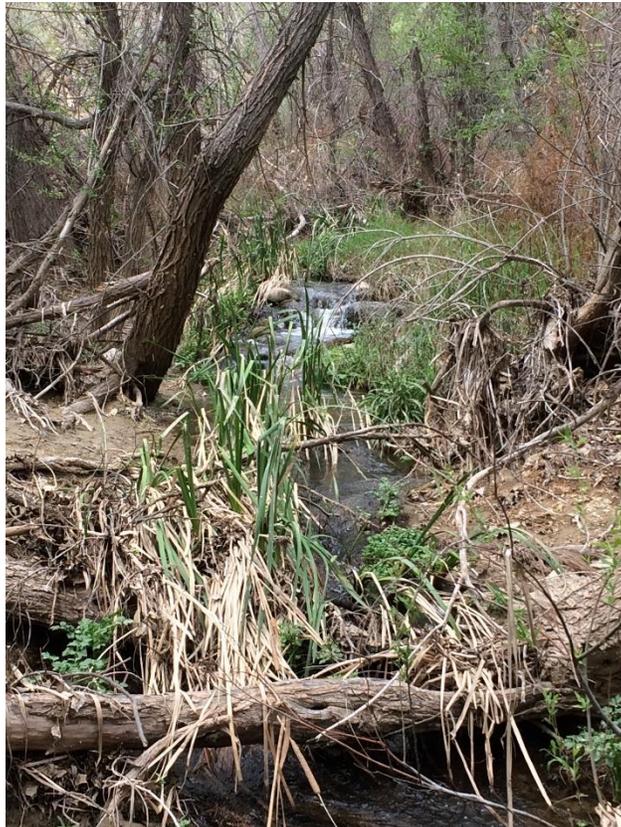

Photo 040518_LAC_4. Looking upstream at Los Alamos Creek.

Photo 040518_LQC_2. Gorman Bypass Channel looking downstream.

Photo 040518_LQC_3. Gorman Bypass Channel looking upstream.

Photo 041718_Piru_2. Piru Creek within Pyramid reach, above Ruby Canyon.

Photo 041718_Piru_5. Piru Creek within Pyramid reach, above Ruby Canyon.

Photo 041718_twos_1. Two-striped garter snake in Piru Creek.

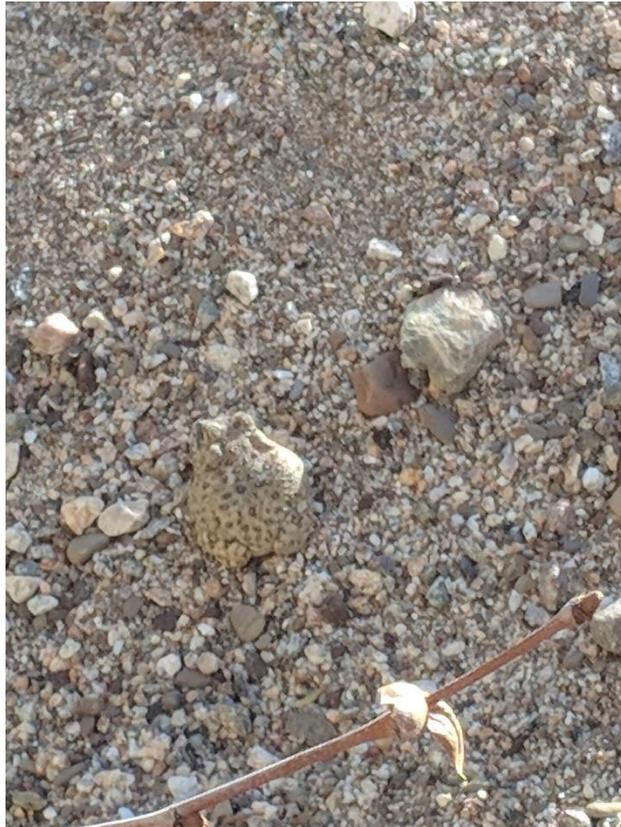

Photo 041718_at_2. Arroyo toad along bank of Piru Creek.

Photo 041818_piru_2. Piru Creek below Fish Creek looking upstream.

Photo 041818_piru_6. Piru Creek above Fish Creek looking upstream.

Photo 051518_FF_1a_2. Piru Creek above Frenchman's Flat looking upstream.

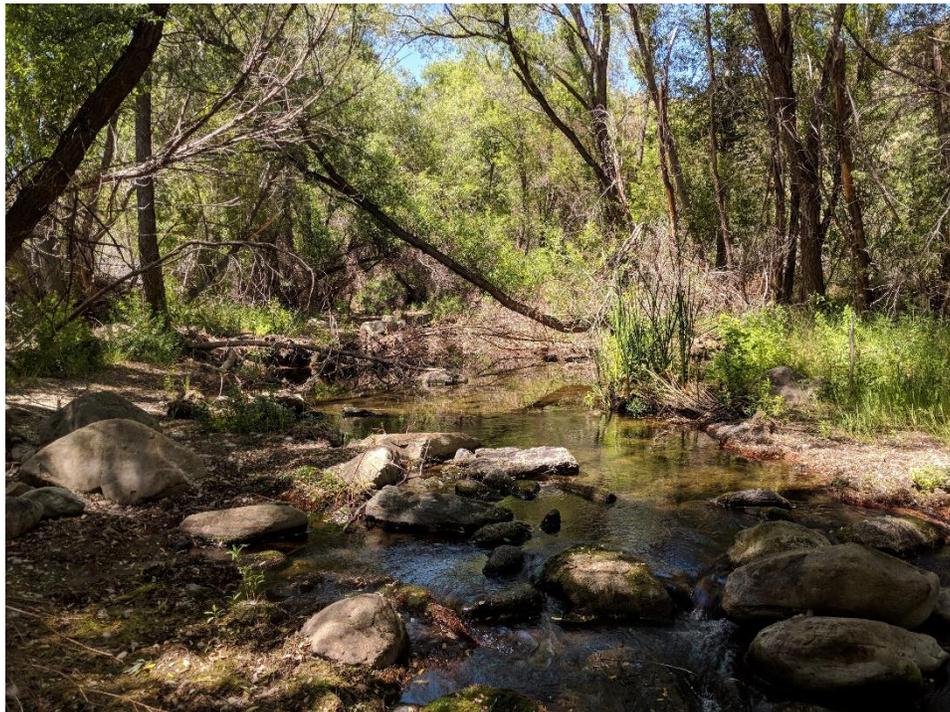

Photo 051518_FF_1b_2. Piru Creek above Frenchman's Flat looking upstream.

Photo 051618_pyramidlk_2b_1. Pyramid Lake at Glory Hole Cove.

Photo 051618_pyramidlk_2d_2. Piru Creek above Pyramid Lake within the study area.

Photo 051718_gorman_3b_2. Gorman Creek showing dense vegetation within channel and riparian area.

Photo 051718_gorman_3c_1. Culvert pool at Orwin Rd.

Photo 051818_elderberry_4a_1. Typical shot of habitat surveyed at Elderberry Forebay.

Photo 051818_elderberry_4b_1. Photo showing typical habitat surveyed at Elderberry Forebay.

Photo 052918_Frenchmans_1a_1. Photo showing habitat in the Pyramid reach upstream of Frenchman's Flat. Looking upstream.

Photo 052918_Frenchmans_1b_1. Looking upstream at typical habitat in the Pyramid reach upstream of Frenchman's Flat.

Photo 053018_2striped_Piru_1. Two striped garter snake observed in Piru creek upstream of Fish Creek.

Photo 053018_coastkingsnake_piru_1. Coast mountain king snake observed in Piru Creek upstream of Fish Creek.

Photo 053018_Piru_10a_1. Photo looking upstream at typical riffle conditions within Piru Creek, upstream of Fish Creek.

Photo 053018_Piru_10b_1. Photo looking downstream at typical pool/ glide habitat in Piru Creek upstream of Fish Creek.

Photo 053118_belowquail_1. Photo looking at pool below spillway within Gorman Bypass Channel.

Photo 053118_kingsnake_quail_1. California king snake observed at Quail Lake.

Photo 053118_quail_1. East end of Quail Lake, looking at lagoon area.

Photo 053118_quail_3. Photo taken near the aquaduct inlet to Quail Lake.

Photo 060118_ebf_3. Ephemeral stream channel surveyed for garter snakes leading into Elderberry Forebay.

Photo 060118_EBF_1. Emergent vegetation area surveyed for garter snakes at Elderberry Forebay.

Photo 060118_gopher_ebf_1. Gopher snake observed during survey at Elderberry Forebay.

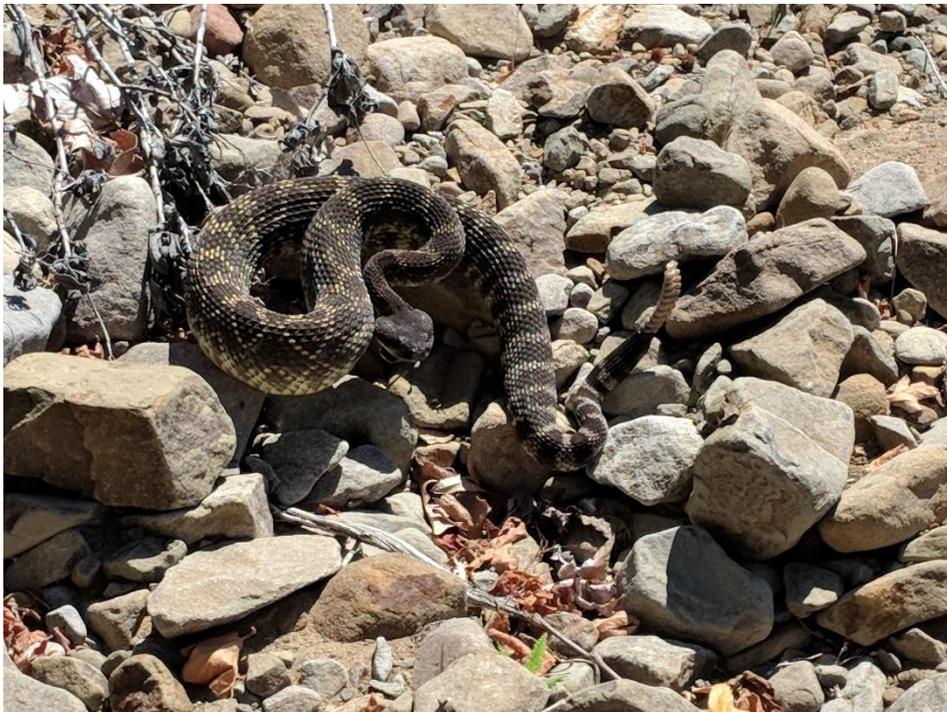

Photo 060118_rattler_ebf_1. Southern pacific rattlesnake observed during surveys at Elderberry Forebay.

Photo 2018_723_Lower_Piru1. Photo showing typical pool conditions in Piru Creek upstream of Fish Creek.

Photo 2018_723_Lower_Piru2. Photo showing typical glide/ pool conditions in Piru Creek upstream of Fish Creek.

Photo 2018_0725_7. Looking upstream in Carlos Canyon, a tributary to Pyramid Lake.

Photo 2018_0725_11. Looking upstream in Piru Creek, upstream of Pyramid Lake. Note the high water level, which was not inundated during May survey.

Photo 2018_0726_6. Typical conditions in Gorman Creek. Note heavy vegetation within riparian zone.

Photo 2018_0726_7. Looking downstream at riffle habitat with overgrown emergent and riparian vegetation within Gorman Creek.

Photo 2018_0726_5. Juvenile western toad observed in Gorman Creek.

Photo 2018_0726_15. Upper culvert at Orwin Rd. Dry during July survey.

Photo 2018_0726_16. Lower culvert at Orwin Rd. Dry during July survey.

Photo 2018_0726_17. Gorman Bypass Channel looking downstream toward I-5.

Photo 2018_0726_21. Gorman Bypass Channel looking upstream at pool at base of spillway.

Photo 2018_0727_10. Looking downstream at ephemeral drainage flowing into Elderberry Forebay.

Photo 2018_0727_11. Photo of riparian and emergent vegetation surveyed for garter snakes at Elderberry Forebay.

Photo 09.25.18_02. Piru Creek looking downstream at typical conditions within the upper section of the canyon below Frenchman's Flat and upstream of Fish Creek.

Photo 09.25.18_02_pond turtle. Southern western pond turtle observed within Piru Creek upstream of Fish Creek.

Photo 09.25.18_03_us. Looking upstream at Piru Creek downstream of Fish Creek.

Photo 09.26.18_04_ds. Looking downstream at Piru Creek downstream of Fish Creek. Note heavy riparian vegetation made surveying nearly impossible.

Photo 09.26.18_06_us. Looking upstream at step-pool habitat in Piru Creek upstream of Fish Creek.
