FERC Project No. 2426—South SWP
Hydropower Additional Information Request Response

Dear Ms. Bose:

On January 30, 2020, the California Department of Water Resources (DWR) and Los Angeles Department of Water and Power (LADWP) (Licensees) filed with the Federal Energy Regulatory Commission (FERC) their Final Application for New License (FLA) for Major Project—Existing Dam for the South SWP Hydropower, FERC Project No. 2426-227. By letter dated April 27, 2020, FERC requested that additional information be provided and filed by July 26, 2020.

The Licensees hereby file responses to FERC's request for additional information as Attachment 1 to this letter.

By this letter, the Licensees formally request that FERC replace Sections 6 and 7 in Exhibit D in the Licensees' FLA with Sections 6 and 7 in Appendix A to Attachment 1 of this filing. In addition, while most of the values used in Sections 6 and 7 only appear in Sections 6 and 7 of the Licensees' FLA, three values may appear elsewhere in the Licensees' FLA and the Licensees formally amend those numbers as follows:

- Castaic Power Development Dependable Capacity: Change from 201,000 kW to 1,232,140 kW
- Total Project Dependable Capacity: Change from 262,000 kW to 1,292,540 kW
- Castaic Power Development Average Annual Energy Generation: Change from 378,945 MWh to 520,339 MWh
- Total Project Average Annual Energy Generation: Change from 683,309 MWh to 824,803 MWh

Ms. Kimberly D. Bose, Secretary
July 24, 2020
Page 2

If you have any questions regarding the additional information request response, please contact Jeremiah McNeil, DWR's Relicensing Program Manager at (916) 557-4555 or Anton Sy, LADWP's Relicensing Project Manager at (213) 367-2332.

Sincerely,

Gwen Knittweis for
