

**Riparian Unit and Shoreline Assessment Data Form**

obtain  
in 475

Shoreline/ Riparian Unit ID: PLR-4 Pyramid Lake Date: 5/16/17  
 Coordinates- Start: \_\_\_\_\_ Coordinates- End: \_\_\_\_\_ Surveyor(s): PB, MG, LF  
 Unit Length: \_\_\_\_\_ Assessment Method: Visual inspection by boat  
 Reaches within Unit: None  
 Additional Features within Unit: PLR-LE-4A

**VEGETATION**

Community Type (Source): Riverine

Dominant Over-Story (Species/% Cover)	Dom. Mid-Strata (Species/% Cover)	Dom. Under-Story (Species/% Cover)
<u>Fremont cottonwood 55%</u>	<u>Mulefat 20%</u>	<u>NNA6 15%</u>
<u>Arroyo willow 5%</u>		

**HYDROLOGY**

Description of Hydrologic Regime: Lawstrine fringe

**LANDSCAPE**

Description of geomorphic regime (erosion processes, upland condition, substrate, etc): Upland erosion from ephemeral drainage  
deposition of material at mouth of drainage

**OTHER INFORMATION**

Unit Assessment Rational: Unique veg & geomorphological characteristics at mouth of  
ephemeral drainage differs from steep canyon-like shoreline and manufactured  
rip-rap or beach recreation areas.
