| EXAMINER: S. Creek                            |               |                       |                                     |
| Target Species Code: CENMEL                   |               | Life Form:            |                                     |
| Scientific Name: Centaurea melitensis         |               | Common Name: toralote |                                     |
| % Infested:                                   |               | Infested Area:        |                                     |
| Density:                                      | UOM:          | Count:                | UOM: Plants or Stems or Individuals |
| Lifestage:                                    | Distribution: | Phenology:            | Treat Priority:                     |

### Canopy Cover

Describe canopy cover by either entering the actual percent, (*Canopy Cover Percent*) or by using canopy cover classes (*Canopy Cover Set and Cover Code*).

|                   |             |                           |
|-------------------|-------------|---------------------------|
| Canopy Cover Set: | Cover Code: | Canopy Cover Percent: 25% |
|-------------------|-------------|---------------------------|

### Distance to Water

|                                    |                                   |
|------------------------------------|-----------------------------------|
| Horizontal Distance to Water: 10ft | Vertical Distance to Water: 3-6ft |
|------------------------------------|-----------------------------------|

### Associated Species

| Target Species Code: | Scientific Name: |
|----------------------|------------------|
| MAR-VUL              | Marrubium ulgare |
| STIM-IL              | Stipa milifera   |
|                      |                  |
|                      |                  |

### Site Information

|                 |                |                            |     |
|-----------------|----------------|----------------------------|-----|
| Elevation Av:   | Min Elevation: | Max Elevation:             | UOM |
| Aspect-Azimuth: |                | Aspect-Cardinal Direction: |     |
| Percent Slope:  |                | Slope Position:            |     |
| Soil Texture:   |                |                            |     |

### Existing Vegetation Information

| Plant Community                    |                 |            |
|------------------------------------|-----------------|------------|
| Class Set Name                     | Class Code:     | Class Name |
| SAF Cover Type:                    | SRM Cover Type: |            |
| <b>Dominant Codominant Species</b> |                 |            |
| Plant Code                         | Scientific Name | Ranking    |
|                                    |                 |            |
|                                    |                 |            |
